**Teaching hospital, equipments, clinical teaching- learning and laboratory facilities as stipulated by the respective regulatory bodies**

SVJCT's Samarth nursing college is attached to 600 bed multispecialty hospital with most modern facility specialty like cardiology, oncology, radiology etc. All the operation theatres are air-conditioned and include laparoscope, image intensifiers, different types of monitors & ventilators. These operation theatres would handle a range of surgeries including simple procedures for treatment of hernia to complicated ones like that for knee replacement, spine surgeries, and Cancer surgeries. And also having cardiac CATHLAB and cardiac operation theater (Aangioplasty, Angiography, Diagnostic Cardiac Catheterization, Echocardiograms, Stress Testing, and 2D Echo with Color Doppler, Percutaneous Coronary Intervention, and Pacemaker & Implantable Cardioverter Defibrillator (ICD) Therapy). And Intensive care units are available for patients who have undergone complicated surgeries, medical emergencies and cardiac emergency, and for new-born babies we are having NICU which 15 bedded capacity and for Pediatric 10 bedded capacity available etc. We have new latest MRI and CT scan Facility. Hemodialysis units are also available considering the need for the same for patients in serious condition. 4 units from Baxter are used for this purpose. For ensuring water purity in dialysis treatment, various water purification techniques like RO System etc. are used. All wards in the hospital are connected to each other by computers. This enables the doctors to view any report in any ward & administer treatment accordingly. Availability of internet helps in obtaining views of doctors from abroad in the treatment of some patients. Arrangements in the hospital which provide clean fresh air and light along with cleanliness have always impressed the patients. We newly started the virology lab for the Covid -19 screening in that we are performing RTPCR and Antigen test also started Linear accelerator radiation therapy for cancer patients.
