3.2.1(Q1M): The Institution has created an ecosystem for innovations including Incubation Centre and other initiatives for creation and transfer of knowledge

SVJCT'S Samarth Nursing College, Dervan has established Incubation Centers for Research and transfer of knowledge. The facilities of the Innovation-cum-incubation centre and its roles and functions are described during the orientation program to the students and motivates them towards research activities.

Innovation-cum-incubation centre will help to create awareness on the role of innovation and discovery by young minds, to establish and promote emerging knowledge, technology and innovation-based startups. Also it will help to establish network between academia, industries, financial institutions thus building vibrant start-up institutions and to create a platform for the undergraduates and postgraduates students, for research and innovations.

The following Committees in the College are actively involved in the establishment of a research culture and promote initiatives for creation, transfer of knowledge and formation of incubation center.

1. Incubation Centre
2. Ethics Committee

1. Incubation Centre: The primary objective of the Incubation centre is to foster innovation research and entrepreneurial activities in healthcare related areas focusing on creating a generation of zealous entrepreneurs and converting novel research into valuable intellectual property.

The Incubation Centre with a vision to promote entrepreneurial spirit amongst students, and faculty members. The alumni/researchers if approached with newer concepts, college help these researchers to generate proof-of-concept through lab level experimentations and validate minimum viability of concept.

2. Ethics Committee: The college has an Institutional Ethics Committee that scrutinizes all research projects especially involving animal studies. The committee is chaired by a chairperson from outside the institution or affiliated hospitals for preventing bias in judging the projects. All projects need to be approved by Ethics committee before further proceedings.

It promotes the research activity by conducting the orientation programs and workshops among the students. committees has conducted a research methodology workshop for postgraduate students in October 2019 for 2019-20 batch and March 2022 for 2021-22 batch. After the submission of proposals, the students will carry on their research projects and gain

knowledge in data collection, acquisition, analysis and drafting of manuscripts. Later on, they are encouraged to submit their research work for publishing in indexed journals. The institute has a dedicated faculty which plays a major role in promoting research related workshops. The committee members takes the initiative every year to organize the 3 days workshop on Research Methodology for the first year Postgraduates.

To monitor and promote the research work, the Research Advisory Committee is established. Inspiring and informative speech with an eminent personalities was organized by the institution. Interactive sessions with the students by such personalities have created interest among the students to do research.
