On 21st June 2023 "International Yoga Day" was celebrated in SVJCT's Samarth Nursing College Sawarde, Kasarwadi at 10.00am. All the faculties and students had participated in the 'international Yoga Day'.

Since its inception in the year 2015, June 21st is celebrated as the International Day of Yoga all over the world. This idea was proposed by our Prime Minister, Mr. Narendra Modi. He said, "Yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness within you, the world and the nature. By changing our lifestyle and creating consciousness, it can help in well-being."

All the faculties and students were excited and energetic. Some of our teachers and students had shown us Yoga by following the instruction given by our Ms. Ruchira Niwale.

The celebration concluded with the speech of Principal Prof. Babasaheb Bhutkar as he encouraged students to practice Yoga as it is effective practice to reduce stress and improve physical & mental wellbeing.

Our Vice Principal Prof. Tejal Surve said that regular practice of yoga will surely help the students achieve a better life, physically, mentally and spiritually as well.

The vote of thanks was given by Ms. Ruchira Niwale & Programme was adjourned by 12pm.

### **INTRODUCTION:**

Samarth Nursing College organized World Breast Feeding week with a view to create awareness among Mothers practice, Emphasize & educate exclusive breast feeding.

Every year, countries around the world observe World Breastfeeding Week for a good reason: breastfeeding is one of the most effective ways to provide children everywhere with the best start to life. This year, the World Health Assembly embraced the annual celebration of World Breastfeeding Week by Member States as a valuable way to advocate for the protection, promotion and support of breastfeeding everywhere.

The theme of this year's World Breastfeeding Week is — "Enabling Breastfeeding – Making a difference for working parents", a recognition of the importance of breastfeeding to a baby's future.

Establishing exclusive breastfeeding – feeding infants nothing but breast milk for the first six months of life — helps young children grow, preventing under nutrition, promoting brain development, and reducing the risk that children will become overweight. This will be established by enabling the parents to do so as in today's world all women are working.

Breastfeeding is also a newborn's first vaccine, providing vital antibodies and an immunity boost.

From the earliest moments of a child's life, breastfeeding can mean the difference between life and death. Putting newborns to the breast within the first hour of life safeguards against newborn deaths. In fact, improving breastfeeding practices could save the lives of 823,000 children under age five every year.

And in emergency settings, when communities are faced with limited access to clean water and basic health services, breastfeeding guarantees a safe, nutritious and accessible food source for infants and young children, while shielding them from disease.

Breastfeeding is indeed the foundation for life and gives growing children a once-in-a-lifetime opportunity to grow and develop to their full potential.

As we mark this year's World Breastfeeding Week, let us also recommit to doing more to help every child, everywhere, realize the lifesaving benefits of breastfeeding, no matter where they live.

## **AIMS OF THE BREAST FEEDING CAMPAIGN**

- > To make aware the peer group to support mothers in order to establish and carry on the breastfeeding.
- > To initiate the breastfeeding supporters to be trained to provide support to mothers and babies in more effective ways.
- > To make aware the people to attend and expand the Peer Counseling programmes by letting them know the effective and efficient benefits of the Peer Counseling.
- >> To Educate Students of Sumandeep Nursing College about importance of Health education and assessing Mothers with breastfeeding.
